CROQUET ASSOCIATION QUEENSLAND

Tournament Handicap Record

The Tournament Manager should inspect the player's card at the start and finish of the tournament and record the handicap and index accordingly.

HANDICAP CHANGE – After each game, in any competition (eg Pennants) or tournament, your **index will change** and your **handicap may change.**

Each handicap has its own trigger point. If your index reaches or passes a trigger point, above or below, which corresponds with a handicap that is different from your current handicap, then **your handicap will change**, effective immediately.
